MEMORANDUM FOR WILLIAM B. STAPLES ✓  
Executive Secretary  
Arms Control and Disarmament Agency

SUBJECT: Discussion with Allies on Soviet Noncompliance

In response to your memorandum dated June 27, 1985, we agree that we should consider the development of a program for detailed discussions with appropriate intelligence, technical and policy officials in allied and friendly governments on Soviet noncompliance.

As a next step, request that ACDA, working with other interested agencies, flesh-out a more detailed plan for accomplishing this program. The resulting plan should address the specific scope and objectives of the program, the level of US participation, the fora in which the discussions would occur, the schedule and timing of the discussions, and the way that questions about current US interim restraint policy and future US options under the terms of that policy would be addressed in the context of these discussions.

Please provide a coordinated plan for final SACG review by August 6, 1985.
